objectives

Allow the renewal of the French foresight, in concepts, methods and practices altogether, to further the identification of emerging issues faced both by public and private decision-makers, and to promote new solutions.

Act to promote the futurists' recognition as professionals and enhance the quality of their work.

Establish a learned society to advancing the field of foresight, at the crossroad of academic and practical knowledge.

Bringing together futurists and decision-makers, to engage them in a pluralistic, interdisciplinary and international conversation and to promote the exchange of knowledge and the sharing of resources.
